“A very funny, no-holds-barred send-up that lampoons the perils of interacting with the female of the species.”

All Women Are Bitches is a short, historically factual, very irreverent, and slightly biased account of the relationships between women and men and their connection to religion. Although the author clearly intends this to be a handbook for men, he dedicates the work to all the beautiful women who inspired him to write it.

AUTHOR BIO

Will Hanson is a Rhode Island native retired from manufacturing management where he worked for one company for almost forty-six years. This is his first book which he decided to write as a challenging but

enjoyable way to spend some spare time and for other reasons mentioned in the book. He loves golf but hates his handicap and spends most of his time with family and great friends including his two cats.

Will is a member of The Association of Rhode Island Authors (ARIA) and lives with his daughter and granddaughter in Rhode Island.
